This week we are focussing on “Oh Dear” by Rod Cambell. The activities above are suggestions to get you started in supporting your child’s learning. Please, feel free to adapt them to your child’s level and include their interests as well. Children learn best through play, so make sure you are encouraging curiosity and let them use and develop their imagination. Work your way through the activities at a pace that works for you and your child. Try to turn off any distractions (e.g. the TV) and create a space where you can learn together. Keep it fun and keep each session short – maybe half an hour. The most important thing you can do is to carry on speaking with your child, to support their language development and to listen to their concerns at this time. If you require any support with your child’s Home Learning, please do not hesitate to email admin@st-marys.lewisham.sch.uk or ring 0208 6902613.
