

Key Vocabulary

- prehistory
- dinosaur
- tools
- culture
- primary
- sources
- archaeology
- compare
- evidence
- timeline

In History we will be asking...

- Did dinosaurs live at the same time as humans?
- What evidence do we have to show what prehistoric life was like?

I already know...

I have learned:

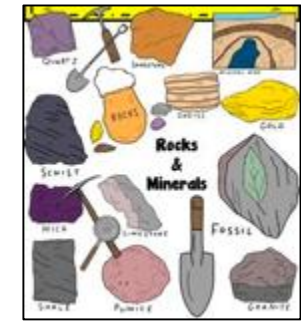

In Science we will asking...

- How is a fossil formed?
- What does a fossil tell us about life in the past?
- What are rocks made from?
- Which is the hardest rock in our collection? How did you find

I already know...

I have learned:

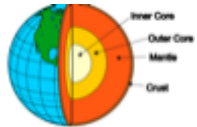

Key Vocabulary

- fossil
- rock
- sandstone
- limestone
- soil
- permeable
- minerals
- hard
- soft
- texture
- absorb water
- crystals

Key Vocabulary

- geology
- core
- crust
- tectonic
- plate
- mountain
- valley
- volcano
- earthquake
- hemisphere
- arctic
- Antarctic

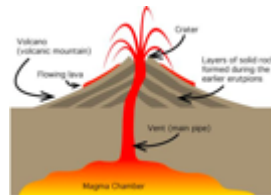

In Geography we will be asking...

- What is inside the Earth?
- How do volcanos happen?
- Why don't we have volcanos in the UK?
- What is a geologist?

I already know...

I have learned:

Stones and Bones

In Art we will be asking...

- How did Stone Age humans make pictures?
- Why do you think they drew the things they did?

I already know...

I have learned:

Key Vocabulary

- cave
- exploration
- surface
- pigment
- media
- inspiration
- experimentation
- stroke
- mark

In Design Technology we will be asking...

- What sort of tools did people in the Stone Age and Bronze Age use?
- What difference did using metal to make tools make?

I already know...

I have learned:

Key Vocabulary

- bronze
- metal
- tools
- molten
- forge

In Design Technology we will be asking...

- What sort of tools did people in the Stone Age and Bronze Age use?
- Which tool was easier to use? Circle your answer. Stone or metal.
- Why do you think this was?

I already know...

I have learned:

Key Vocabulary

- bronze
- metal
- tools
- molten
- forge
