

WARNING

SERIOUS SAFEGUARDING INCIDENT ON ROBLOX

We have been made aware that children are being groomed in online chat rooms on www.roblox.com.

There are also many other gaming websites which are designed for children but allow online chat and are targeted by sexual predators.

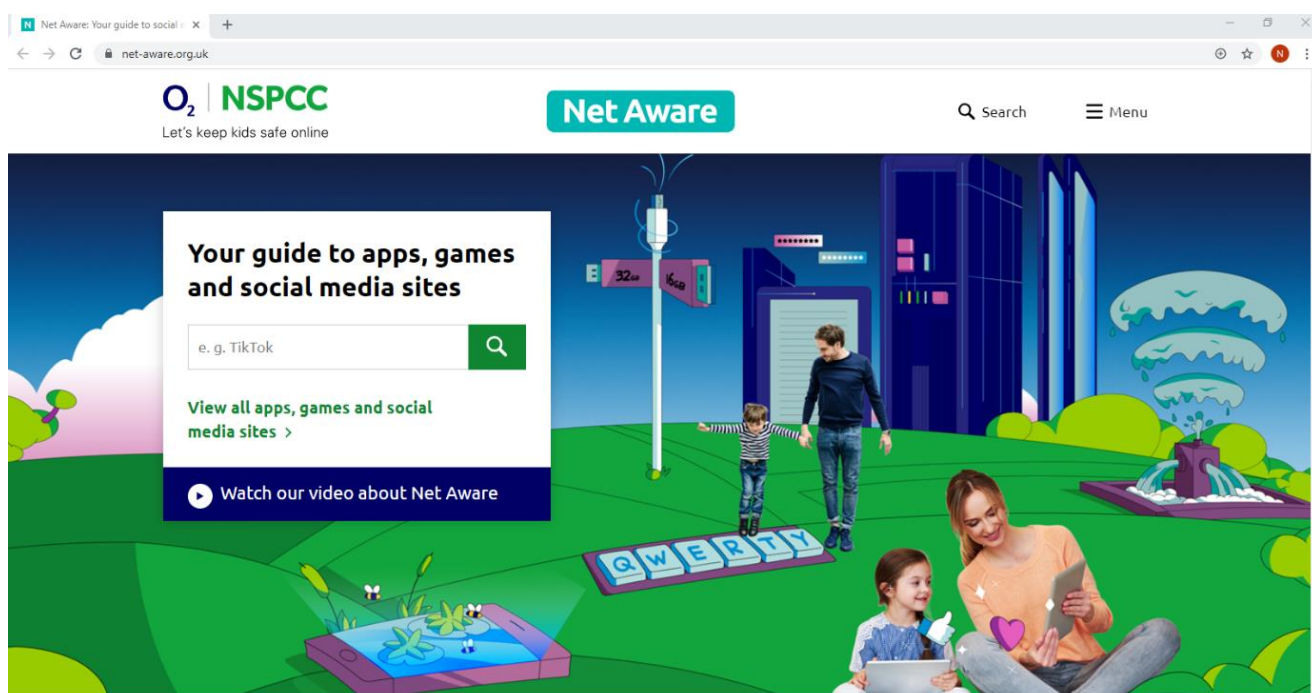

Please keep a check on what websites and games your children are using.

What can I do to help protect my child?

There are things you can do to help protect your children from online exploitation.

- **Take an interest.** Speak to your child about what they are doing online and take the time to join in. Let them teach you how to do things and show you what they like to do.
- **Check** games content and features (Is it appropriate? Will they be chatting to strangers?)
- Remember to use **privacy and parental controls**
- Turn **location settings off** in mobile apps

You can use www.net-aware.org.uk to find out more about the apps, games and websites that your child likes. It has lots of tips and advice for parents about how to keep your children safe. Watch a video about net-aware [here](#).

The image shows a screenshot of the Net Aware website. The browser address bar displays "net-aware.org.uk". The page header includes the "O2 | NSPCC" logo with the tagline "Let's keep kids safe online", the "Net Aware" logo, a search bar, and a menu icon. The main content area features a large illustration of a family (a man, a woman, and two children) in a stylized, colorful environment. A white box on the left contains the text "Your guide to apps, games and social media sites" and a search input field with "e. g. TikTok" and a magnifying glass icon. Below this is a link "View all apps, games and social media sites >" and a video player icon with the text "Watch our video about Net Aware".
